### INSTRUCTIONS

**Step 1** - Empty all bead packets into a small bowl or plastic container.

**Step 2** - Using a needle and thread, start by sewing on the beaded acrylic flowers, spreading them out evenly across the turban.

**Step 3** - Then start filling in the rest of the turban by sewing all the different beads on in a random pattern. To save time you can sew on 2 beads at a time but the time is worth it when you see the finished piece. It's a unique and expensive looking piece that is bound to turn heads.
