### Glitter Tree

**Step 1** - Select the glitter you would like to use and the order, we used 4 colours from silver to pink.

**Step 2** - Brush the base of the cone with the glue from the pack and sprinkle your chosen glitter.

**Step 3** - Brush another layer moving towards the top of the cone and add your other glitter, repeat changing glitter in the order you decided until you get to the top. To create an ombre effect, you may want some of the layers to slightly overlap.

**Step 4** - Leave to dry.

### Rhinestone Tree

**Step 1** - Paint the cone a soft grey and leave to dry.

**Step 2** - Using hot glue gun & sticks, glue groups of 3 or 4 cased stones in shapes and colours of your choice, we used pink, silver, yellow and blue stones.

**Step 3** - Fill the spaces with round crystals in different sizes by brushing with PVA glue (this will dry clear) and applying the crystals. Work in small sections.
