## WHAT YOU'LL NEED

- Plastic snowglobe
- Ornaments or decorations
- Sculpey
- E-6000 Craft Adhesive
- EnviroTex Lite
- Glitter
- Water
- Paintbrush
- Paper Towels
- Paper plate

## INSTRUCTIONS

**Step 1.** Make ornaments out of sculpey. We made a snow man using 2 balls of white sculpey and a small piece of orange for his carrot nose.

**Step 2.** Bake sculpey in oven for 15mins at 130c.

**Step 3.** Follow the instructions on the E-6000 package and glue your ornaments to the inside of the snow globe lid. Let dry for 24 hours.

**Step 4.** Follow the directions on the EnviroTex Lite packaging and using a paint brush, paint your ornaments and interior seal making sure you it completely sealed. Set aside and let dry completely.

**Step 5.** Fill the globe container with water and add ½ a teaspoon of glitter.

**Step 6.** Coat the exterior sides of the interior seal of the snow globe with E-6000 and push into globe.

**Step 7.** Turn globe container upside down with the exterior base now on the counter to stabilize – this will keep the glue from dripping.  
Set aside and let dry thoroughly.

**Step 8.** Screw on exterior base, shake and enjoy!
