# FELTED LANDSCAPE

**e** EASY

## WHAT YOU'LL NEED

- 'Arbee' Wool for Crafting
- Colours of your choice
- 'Arbee' Embroidery Hoop 175mm
- 'Arbee' Felting Needle Tool
- 'Arbee' Foam block
- 'Arbee' Felt Sheet (A4)
- Scissors & fabric marker

## INSTRUCTIONS

**Step 1** – Centre hoop onto felt sheet and with marker draw the outline of the inner circle.

**Step 2** – Start with the background colours, position felt sheet over the foam block and with the felting tool punch the wool into position. Keep within the outline of the circle.

**Step 3** – Arrange wisps of wool to represent stems and leaves and tiny balls of wool for flowers and dot over the background then repeat with positioning onto foam block and punch into position.

**Step 4** – Separate the hoops, place the artwork over the inner hoop, using the drawn outline as a guide to centre the felt sheet.

**Step 5** – Position the outside hoop over and push into place, tighten the bolt. Cut off the excess felt close to the finished frame. Your completed work is now ready to hang.

**Note** – This is a freehand design, if you want to make a hoop with an image, draw the outline of the image onto the felt ensuring it is in the circle and then proceed as per instructions above regarding foam block and felting needle.
