KIDS MARBLE PAINTING

e EASY

WHAT YOU'LL NEED

- Canvas
- Acrylic paint
- Cling Wrap
- Sponge

INSTRUCTIONS

Step 1 – Start by squeezing small blobs of the acrylic onto the canvas. Ensure you cover the entire canvas and use multiple colours to create a nice colourful painting.

Step 2 – Place a large sheet of cling wrap over the canvas. Use your hands to mix the paint colours together underneath the cling wrap. You can peel back the cling wrap carefully to see how it is coming together.

Step 3 – Remove the cling wrap once you are happy with how the paints are mixing together, if you want to mix the colours more you can use a sponge and some water to swirl the colours together further.

Step 4 – Allow canvas to dry before hanging. This is a great project for kids as it is mess free and creates a modern looking artwork.
