TAKE + MAKE

SUCCULENT MOSS BOX

16.18.23

EASY

WHAT YOU'LL NEED

- Boyle bamboo crate
- Floral foam bricks
- Knife
- Loss moss
- Moss balls & moss pads
- A variety of succulents
- Moss twig grid
- Hot glue gun & glue sticks

INSTRUCTIONS

Step 1. Fill the crate with floral foam bricks. Use a knife to cut up the bricks into different sizes if necessary for a snug fit.

Step 2. Layout a variety of loose moss, moss pads, moss balls, and succulents picks on top of the foam bricks.

Step 3. Once you've figured out the layout, use the hot glue gun to secure all the flat pieces of the foam bricks (i.e. loose moss and moss pads).

Step 4. Then cut the moss & twig grid to size to fit over the top of the crate and moss fillers.

Step 5. Secure the moss & twig grid to the sides of the crate using the hot glue gun.

Step 6. Finally, glue the moss balls and push in the succulent picks, wherever you like, over the grid!
